Connecting People, Places and Stories

We provide world class digital solutions for destinations with stories to share. Harness the power of technology to allow your visitors to engage deeper, explore further, and discover more.

Our suite of platforms address all different needs, meaning we have the best solution for you.

storyapps

empowers your organization to create beautiful, easy to use mobile apps.

storyguide

allows you to share your stories via a collective app where you can search for local attractions.

storyfleet

combines on-site hardware with our STQRY platform to download content to your shared devices.

storycollect

lets you digitize, store and publish your collections online.

What makes us different?

Customer support

We offer ongoing customer support, all over the world, available via email, phone and web chat. Plus we push regular new features and bug fixes direct to our builder, all at no extra cost.

Online app builder

Our simple online platforms let you build everything from location-based tours, mobile, and web apps, audio guides, games, and online collections.

No long term contracts

Our simple pricing model means you're not locked into long term contracts. Choose the plan most convenient for you!

Visitors love engaging and interactive experiences. We make creating those experiences easier with our feature-rich STQRY builder.

Use the STQRY platforms for:

Mobile and Web Apps

Use the STQRY platforms to develop mobile and web apps. Choose from a variety of features and place your content directly in the palm of your users' hands.

Accessibility

The STQRY platforms can enhance your experience by making it inclusive using multilingual content and amazing accessibility features.

Education

Educate and connect with all ages. From gaming features to multimedia content, STQRY makes it easy to captivate your audiences.

Exhibitions

Enhance your exhibitions with STQRY by managing devices, digitizing a collection, and creating tours and/or audio guides.

Self-guided & Guided tours

Create self-guided or guided tours with advanced mapping features, interactive content and various language options.

Gamification

Enhance any experience by using gamification features and augmented reality to interact with your users on a new level.

Collections management

Digitize and manage your collections online. STQRY allows your users to view and interact with your content using community focused features.

STQRY provides award winning digital storytelling platforms to help your audiences explore, engage, and discover destinations in new ways. The STQRY team has worked on thousands of projects worldwide since our inception in 2006 with clients ranging from museums, parks, attractions, cities, and historic sites of all sizes.

Testimonials

“STQRY has dramatically improved our tour offerings, making it possible to produce excellent tours quickly, with far fewer resources.”

Cody Hartley, Georgia O’Keeffe Museum

“STQRY’s intuitive platform was the perfect choice in creating a mobile Campus Tour app, allowing prospective students and campus visitors the chance to experience Yale outside of our established hospitality offerings”

**John Yi, Senior Assistant Director
Yale University Office of
Undergraduate Admissions**

“The great thing for us is that the app is easily updatable. We can adjust the user experience as we go.”

**Jennifer Brook, Program Manager
Humanities, Museum Victoria**

“...the platform is so easy to use, our public affairs and recreation officers are able to upload current information in a moment’s notice, without having to go through the long process of having our IT team make a change.”

**Toby Bloom, National Program
Manager of Travel, Tourism, and
Interpretation at the USFS**
